

MT0_12

Technical description

Modular system made of extruded aluminium epoxy powder painted in ultramatt white finishing.

Suitable for trim recessed installation on plasterboard thickness 12.5 mm.

The polycarbonate diffuser is at lower edge (non-retracted) that confers a not more than 120° beam emission .

The system can be wired with LE positioned and the diffuser covers all the profile length, creating a continuous lighting effect.

Installation:

Trim recessed on plasterboard.

Dimensions:

MT0_12P = 20mm H = 20mm

Finishings:

94 bianco superopaco white ultramatte

MT0_12

IP 20  24 Volts

Cut on measure with project drawing.
