

## MT2\_27

### Technical description

Modular system made of extruded aluminium for total recessed installation in plasterboard surfaces thickness 12,5mm. Epoxy powder painted in ultramatt white.

The satin polycarbonate diffuser is positioned flush to lower part of the profile (not retracted) with beam emission not more than 120 °.

The system can be wired with LED strips 24V, where the driver is remote positioned and the polycarbonate diffuser covers all the profile length, creating a continuous lighting effect.

### Installation:

Total recessed in plasterboard thickness 12,5mm.

### Dimensions:

MT2\_27

P = 27mm H = 25mm

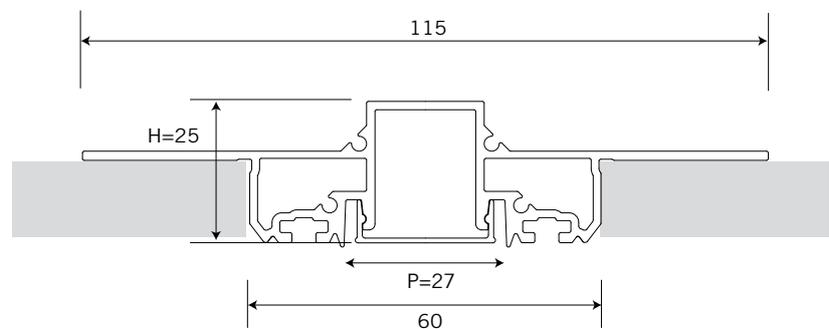

### Finishings:
