TRACK 230v

Technical description:

Three-phase track made of extruded aluminum with two additional conductors for managing the DALI signal. It can be used in the necessary length by simply cutting the profile according to the desired size. There are three types of fixing: ceiling-mounted using a metal clip, recessed or suspended using a steel cable and fixing brackets. The accessories allow the union and arrangement of the track as needed.

Installation:

Ceiling mounting.

Dimension:

TRACK 230v

1000mm, 2000mm e 3000mm linear modules.

Finishes:

black

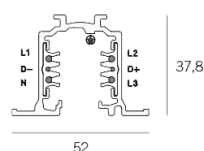

white

Weight:

1,10Kg (L=1000mm), 2,10Kg (L=2000mm) e 3,40Kg (L=3000mm)

TRACK 230v

Recessed:

Ceiling/Suspension
