

RF_110

Technical Description

Total recessed round trimless lighting fixture.

The peculiarity of the product consists in the existence of two elements, the outer casing that must be installed on plasterboard and the internal structure that houses the spot and allows its orientation.

These two so distinct parts determine a functionality and design plus, giving the possibility to place the fixture within the ceiling level.

COB LED lighting sources with high efficiency and durability, color tolerance 3 McAdams, Production tolerance of flux and efficiency: +/- 15% Min. CRI> 90, Operating Life: 50,000 hrs.

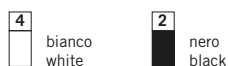

Installation:

Total recessed on plasterboard.

Dimensions:

RF_110 Ø housing = 176 mm Ø spot 110 mm H= 141 mm

Finishings:

RF_110 LED COB 12W 3000°K 1500lm 125lm/w CRI>95 350mA cl. A++

RF_110 LED COB 17W 3000°K 2070lm 122lm/w CRI>95 500mA cl. A++

Available in 2700 ° K - 4000 ° K version
