MD_45

Technical description

Modular extruded aluminum profile for contemporary direct and indirect lighting.

Designed to hook directly to the profile stainless steel suspension cables, MD_45 is particularly suitable to be suspended, but it can also be installed surface mounted on the wall to get a wall-washer effect.

The system can be equipped with opal or prismatic diffusers that are flush-mounted (not retracted) and allow light continuity along the profile with an emission not exceeding 120 °.

MD_45 can be wired with 24V LED strip and 500mA Hi Power LED of different power and it was designed to hold the power supply to its interior.

Installation:

Surface mounted on wall o suspended.

Dimensions:

MD_45

P= 54mm H = 88,5mm

Finishings:

white ultramatte

black ultramatte

anodized alluminum
