### MTO\_27

#### Technical description:

Modular system in extruded aluminum painted with epoxy powders in a single super-matt white finish. Suitable for flush-mounted installation on plasterboard only. The polycarbonate diffuser is flush with the lower edge (not retracted) with emission not exceeding 120 °. The system is wired with LED strips where the power supply is placed remotely and the diffuser covers the entire length of the profile, creating a continuous line of light.

#### Installation:

Recessed on plasterboard.

#### Dimension:

MTO\_27

P = 37 mm H = 25,5 mm

#### Finishes:

supermatt white

MTO\_27

IP 24  
40 CE Volts

Configurable with project measures.
