

MT1_12

Technical description

Modular system in extruded aluminum painted with epoxy powders for super matt white, super matt black or anodized aluminum finish.

Suitable for ceiling installation.

The polycarbonate diffuser is flush with the lower edge (not retracted) with emission not higher than 120 °.

The system is wired with 24V LED strips.

The power supply is placed remotely and the diffuser covers the entire length of the profile creating a continuous line of light.

Installation:

Ceiling mounted.

Dimension:

MT1_12**P = 14.5mm H = 20mm**

Color:

94 bianco superopaco
white ultramatte

92 nero superopaco
black ultramatte

98 alluminio anodizzato
anodized aluminium
