### MT1\_45

#### Technical Description

Modular system made of extruded aluminium powder coated for ultramatte white, mat black or anodized aluminum finishings.

Suitable for suspended surface installation.

The polycarbonate diffuser is flush with the lower edge (not retracted) with beam emission not more than 120 °.

The system can be wired with 24V strip leds where the driver can be internal or remote placed and the diffuser covers the entire length of the profile creating a continuous lighting line.

#### Installation:

Suspended or surface.

#### Dimensions:

MT1\_45

P= 50 mm H = 65 mm

#### Finishings:

94	bianco superopaco white ultramatte	92	nero superopaco black ultramatte	98	alluminio anodizzato anodized aluminium
