## MT3\_27

---

### Technical description

Modular system in extruded aluminum with exclusively lateral support bracket, suitable for ceiling installation. Epoxy powder painted for matt white, matt black or anodized aluminum finish. The polycarbonate diffuser is flush with the lower edge (not retracted) with emission not exceeding 120 °.

The system is wired with 24V LED strips where the power supply is placed remotely and the diffuser covers the entire length of the profile creating a continuous line of light.

---

### Installation:

Ceiling mounted lateral.

---

### Dimension:

**MT3\_27****P = 30mm H = 30mm**

---

### Color:

94 white super matt white  
ultramatte

92 super matt black  
ultramatte black

98 anodized aluminum  
anodized aluminum

IP 24  
40 CE Volts

---

Configurable to size with project drawing. MT3\_27
