MX0_45

Technical description:

Modular system in extruded aluminum for recessed installation on abutment plasterboard. The polycarbonate diffuser is retracted by about 21mm with respect to the edge of the profile itself to allow a more comfortable emission by lowering the direct luminance. The system can be equipped with 24V LED strips and remote power supply. Available in a single super matte white finish.

Installation:

Flush mounted on plasterbord

Dimension:

MX0_45

P1= 61mm P2= 50mm H = 64,5mm

Finishes:

white ultramatte
