

## MX1\_45

### Technical description

Modular System made of aluminum extrusion for fully recessed installation on plasterboard, surface-mounted or suspended.

The polycarbonate or prismatic diffuser is retracted to aprox. 21 mm from the edge of the profile to allow a more comfortable emission, lowering the forward luminance. Available in white ultra matt finishes, ultra matt black and satin anodized aluminum.

The system can be equipped with LED strips 24V and the power supply is remote.

### Installation:

Fully recessed on plasterboard, surface mounted or suspended.

### Dimensions:

MX1\_45

P= 50mm H = 64,5mm

### Finishings:

ultra matt white

ultra matt black

anodized aluminium

MX1\_45

IP  
40
