2026
MILANO CORTINA
PUCK FIVE LIMITED EDITION

I cerchi olimpici di Milano e Cortina.

Il prodotto "Puck Five limited edition" è stato creato per celebrare il prestigioso evento delle Olimpiadi di Milano Cortina 2026.

Per commemorare questa importante manifestazione sportiva verranno prodotti 2026 pezzi.

I cinque anelli simboleggiano i cinque continenti, proprio come i cinque cerchi olimpici che uniscono i popoli di tutto il mondo in uno spirito di competizione e fair play.

The Olympic rings of Milan and Cortina.

The product "Puck Five limited edition" was created to celebrate the prestigious event of the Milano Cortina 2026 Olympics.

To commemorate this important sporting event, 2026 pieces will be produced.

The five rings symbolize the five continents, just like the five Olympic rings that unite people from all over the world in a spirit of competition and fair play.

Puck Five Limited Edition

Scoprendo un nuovo
significato della luce,
uniamo l'architettura e il
design per creare
un'esperienza senza
precedenti che emoziona
e stupisce.

When discovering a new
meaning of light, we
combine architecture and
design to create an
unprecedented experience
that excites and amazes.

Puck Five

LIMITED EDITION

finiture: bronzo, bianco, nero.
finishing: bronze, white, black.

Puck five è perfetta per creare ogni tipo di atmosfera grazie ad un mix tra illuminazione d'ambiente, attraverso i cinque anelli a luce diffusa, e una illuminazione puntuale con il proiettore centrale a luce diretta. La versione Casambi con il controllo wireless, consente un utilizzo versatile e flessibile in grado di adattarsi a qualsiasi ambiente e di offrire un'ampia gamma di scenari di regolazione. Ad esempio in modalità "lume di candela" del solo proiettore alloggiato nel corpo centrale. È la scelta ideale per chi cerca una soluzione di alta qualità, in grado di unire funzionalità e design elegante.

Puck five is perfect for creating any type of atmosphere thanks to a mix of ambient lighting, through the five rings with diffused light, and focused lighting with the central projector with direct light. The Casambi wireless control version allows versatile and flexible use that can adapt to any environment and offer a wide range of control scenarios. For example, in "candlelight" mode of the only projector housed in the central body. It is the ideal choice for those looking for a high quality solution, able to combine functionality and elegant design.

Benvenuti nel nostro mondo di prodotti ibridi che combinano la funzionalità delle soluzioni architettoniche con il design dei prodotti decorativi.

Offriamo soluzioni di illuminazione innovative e uniche come elemento di differenziazione nel mercato.

Grazie alla nostra capacità di integrare funzionalità e design, i nostri prodotti si distinguono per la loro versatilità, qualità e durabilità.

Arcdecor & Macrolux
Innovative Luxury Elements

Welcome to our world of hybrid products, which combine the functionality of architectural solutions with the design of decorative products.

We offer innovative and unique lighting solutions as a differentiating element in the market.

Thanks to our ability to integrate functionality and design, our products stand out for their versatility, quality and durability.

Puck

La nuova collezione Puck
combina il design puro e senza
tempo degli anni '50.

The new Puck collection
combines the pure and timeless
design of the 50s.

Puck

Puck

finiture: bronzo, bianco, nero.
finishing: bronze, white, black.

La versione a parete è dotata di doppio schermo in vetro retroverniciato in bianco per garantire una distribuzione morbida e confortevole della luce.

Realizzata in alluminio verniciato bianco, nero e anodizzato bronzo, alloggia un LED ad emissione diretta ed indiretta.

The wall version is equipped with a double glass screen painted in white to ensure a soft and comfortable distribution of light.

Made of white, black and bronze anodized aluminum, equipped with a one LED with direct and indirect emission.

Controller

La lampada a parete Puck con controller Casambi è un'innovativa soluzione di illuminazione che combina design moderno, funzionalità avanzate e tecnologia di controllo intuitiva.

Questa lampada è ideale per ambienti residenziali e commerciali che richiedono un'illuminazione di qualità e la possibilità di gestirla tramite dispositivi mobili o comandi vocali.

The Casambi-controlled wall lamp Puck is an innovative lighting solution that combines modern design, advanced functionality, and intuitive control technology.

This lamp is ideal for residential and commercial environments that require quality lighting and the ability to manage it through mobile devices or voice commands.

Puck Mono

La sua forma circolare crea un contrasto accattivante con le linee rette dell'architettura, aggiungendo interesse visivo e dinamismo a qualsiasi spazio.

Its circular shape creates an appealing contrast with the straight lines of the architecture, adding visual interest and dynamism to any space.

Light equals breath

La luce calda che emana può creare un'atmosfera accogliente e tranquilla, ideale per una zona di passaggio e altre aree di relax.

The warm light it emits can create a cozy and peaceful atmosphere, ideal for a passageway and other relaxation areas.

Puck Mono

finiture: bronzo, bianco, nero.
finishing: bronze, white, black.

Installabile sia a parete che a soffitto, Puck Mono è dotata di schermo in vetro retroverniciato bianco per garantire una distribuzione morbida e confortevole della luce. Realizzata in alluminio verniciato bianco, nero e anodizzato bronzo, alloggia un singolo LED ad emissione diretta.

Installable on both walls and ceilings, Puck Mono is equipped with a back painted white glass screen to guarantee a soft and comfortable distribution of light. Made of painted white, black and anodized bronze aluminum, it houses a single direct emission LED.

96

2

Puck Small

Forma compatta verticalizzata che consente una emissione indiretta unita a quella diretta, per enfatizzare pareti o semplicemente per illuminare soffitti con luce morbida e diffusa.

Compact vertical shape that allows indirect emission combined with direct emission, to emphasize walls or simply to illuminate ceilings with soft and diffused light.

Il corpo distanziato permette un contributo di luce indiretta ideale per una illuminazione rilassante di elevata resa.

Minimalist design, direct/indirect emission to highlight walls or to illuminate ceilings with delicate and uniform light.

Puck Small

finiture: bronzo, bianco, nero.
finishing: bronze, white, black.

Progettata per un arredo easy e raffinato, mantiene ovunque una precisa identità formale.

Realizzata in alluminio verniciato bianco, nero e anodizzato bronzo, alloggia un LED ad emissione diretta ed indiretta.

Designed for easy and refined furnishings, it maintains a precise formal identity everywhere.

Made of white, black and bronze anodized aluminum, equipped with one LED with direct and indirect emission.

96

2

Puck Small Cover

La versione con copertura cieca garantisce un'illuminazione uniforme e priva di abbagliamento, la sua luce indiretta crea un'atmosfera piacevole e rilassante, perfetta per ogni momento della giornata.

The version with a blind cover ensures uniform and glare-free illumination, while its indirect light creates a pleasant and relaxing atmosphere, perfect for any time of the day.

Puck Small Cover

finiture: bronzo, bianco, nero.
finishing: bronze, white, black.

Installabile sia a parete che a soffitto,
Puck Small Cover è dotata di schermo in
vetro e copertura in alluminio verniciato.

Installable on both walls and ceilings,
Puck Small Cover is equipped with a glass
screen and painted aluminum cover.

2

Puck Lite

La versione doppia prevede l'estensione dei corpi luce con due versi applicativi, destro e sinistro.

The double version involves extending the light bodies with two application versions, right and left.

Right

Left

Puck Lite

finiture: bronzo, bianco, nero.
finishing: bronze, white, black.

Questa configurazione permette di ottenere un'emissione più ampia e una maggiore flessibilità di installazione, con la possibilità di dirigere ciascun apparecchio nella direzione desiderata per una diffusione ottimale della luce. La doppia emissione consente di adattare al meglio l'illuminazione all'ambiente e allo spazio da illuminare. Realizzata in alluminio verniciato bianco, nero e anodizzato bronzo, alloggia un LED ad emissione diretta ed indiretta.

This configuration allows for a wider emission and greater installation flexibility, with the ability to direct each luminaire in the desired direction for optimal light diffusion. The double emission allows the lighting to be best adapted to the environment and space to be illuminated. Made of painted white, black and anodized bronze aluminium, it houses an LED for direct and indirect emission.

Puck One

Puck One, un corpo cilindrico disponibile nelle eleganti finiture bianco/nero laccato oppure in raffinato bronzo anodizzato spazzolato. Dotata di 2 prolunghe in alluminio dalla funzione estetica e di bilanciamento che avvolgono armoniosamente il cavo elettrico. La lampada diffonde una luce soffusa grazie al doppio vetro retrolaccato bianco. Il cavo di alimentazione è abbinato al colore della struttura, per una perfetta armonia visiva.

Puck One, a cylindrical body available in elegant black/white lacquered finishes or in refined brushed anodized bronze. Equipped with 2 aluminum extensions with an aesthetic and balancing function that harmoniously wrap the power cord. The lamp diffuses a soft light thanks to the double back-lacquered white glass. The power cord matches the color of the structure, for perfect visual harmony.

Puck Three

Esplorando una nuova interpretazione della luce, la nostra visione integra architettura e design per creare un'esperienza unica ed emozionante.

Exploring a new interpretation of light, our vision integrates architecture and design to create a unique and exciting experience.

Il terminale cilindrico ospita un riflettore anodizzato nero e la lente asferica, una soluzione tecnica volta a minimizzare la dispersione della luce e creare un effetto spot preciso sul piano di appoggio.

The cylindrical end cap houses a black anodized reflector and the aspherical lens, a technical solution aimed at minimizing light dispersion and creating a precise spot effect on the resting surface.

La cura dei dettagli costruttivi di Puck valorizza l'eleganza del suo design. In particolare, l'anello presente nel proiettore centrale, le conferisce slancio e dinamicità, e rappresenta un elemento distintivo e riconoscibile.

The attention to construction details enhances the elegance of Puck's design. In particular, the ring present in the central spotlight gives it lightness and dynamism, making it a distinctive and recognizable element.

Puck Three

finiture: bronzo, bianco, nero.
finishing: bronze, white, black.

Puck Three è il risultato di un'interpretazione completamente nuova della luce e delle sue qualità. Un concetto di design unico, guidato dal desiderio di creare una lampada tanto espressiva quanto funzionale. Comfort, lusso, piacere ed estetica elegante si fondono in un unico prodotto che controlla la luce per fondersi con l'ambiente circostante e migliorare la vita quotidiana. La versione Casambi con il controllo wireless, consente un utilizzo versatile e flessibile in grado di adattarsi a qualsiasi ambiente e di offrire un'ampia gamma di scenari di regolazione. Ad esempio in modalità "lume di candela" del solo proiettore alloggiato nel corpo centrale.

Puck Three is the result of a completely new interpretation of light and its qualities. A unique design concept, driven by the desire to create a lamp that is as expressive as it is functional. Comfort, luxury, pleasure and elegant aesthetics merge into a single product that controls light to blend into the surrounding environment and improve daily life. The Casambi wireless control version allows versatile and flexible use that can adapt to any environment and offer a wide range of control scenarios. For example, in "candlelight" mode of the only projector housed in the central body.

CASAMBI

Controller

Il controller Casambi integrato nelle lampade Puck permette di controllare l'illuminazione attraverso l'applicazione Casambi per smartphone, smartwatch e tablet (disponibile sia per iOS che per Android).

Casambi utilizza la tecnologia Bluetooth Low Energy (BLE) per comunicare con i dispositivi mobili e altre lampade compatibili all'interno della rete di illuminazione.

Le funzioni di controllo offerte dall'App Casambi includono:

- Accensione/spegnimento
- Regolazione dell'intensità luminosa (dimming)
- Creazione di scene e programmazione di orari
- Gruppi di lampade e controllo individuale

In conclusione, la lampada con controller Casambi offre un'illuminazione di alta qualità, design moderno e un controllo semplice e intuitivo, rendendo questa soluzione di illuminazione perfetta per ambienti moderni e smart.

The Casambi controller integrated into Puck lamps allows lighting control through the Casambi app for smartphones, smartwatch, and tablets (available for both iOS and Android).

Casambi uses Bluetooth Low Energy (BLE) technology to communicate with mobile devices and other compatible lamps within the lighting network.

The control functions offered by the Casambi app include:

- On/off switching
- Brightness adjustment (dimming)
- Creation of scenes and scheduling
- Lamp groups and individual control

In conclusion, the lamp with Casambi controller offers high-quality lighting, modern design, and simple and intuitive control, making it a perfect lighting solution for modern and smart environments.
